Fruntions on the Skin, Diseases of the Gande,
Museles, and Integraments, and relieving Stings,
Cutts, Ruisines, Spanias, Sec., Sec. With this preparation, "there is no such word as fait." The
first journals in America, medical men of the highest entimence, prominent citizens of all professions,
and ladies who lates used it for years in their
dressing rooms and nursaries, admit with one accord, that, for imparting vegor, glors, luxuriance,
and cord to the lasir, cradicating searf and dandriff, healing wounds, curing containes, sprating,
Sings, Sec., and relieving diseases of the skin, the
glands, and the museles, it has no equal among the
institute of compounds advertised in the public
prints, or used in private practice. In eleapness
well as effected. Barry's Thembercous is unri-

with moisture and impart life to the fibres the result is searf, dandraft, shedling of the harigrayness, dryses, and hardness of the ligament and entire baldness as the case may be. Stimulate the skin to healthful tation with the Tricopherous, and the torpid vessels, recovering their activity, will annihilate the disease. In all affections of the skin, and of the substimu of muscles and integraments, the process and the effect are the same. It is upon the skin, the muscular fibre, and the glands, that the Tricopherous has its spirific netion, and in all affections and injuries of these origina, it is a covereign repody.

NEWPORT.

BY CRANSTON & NORMAN 127 THANKS STREET.

WEDNESDAY MORNING, SEPT. 11, 1860.

The members of the celebrated Germania Musical Society take their departure from Newport this morning, which emphatically closes the fashionable season here, this year. We have often had occasion to speak of this Society, during the last two years, and we never have spoken in their praise merely for the purpose of saying a pleasant or a kind word in their behalf call that we have written we know to be true. The Germanians are all gentlemen, in the fullest acceptation of that word, and they are all scientific musicians Most of them have been compelled to leave their father-land in consequence of the political distractions which have so long convulsed that land of song and of learning, and they have sought a roluge on these shores of freedom. Here they were compelled to resort to music as means of sun port, and they have devoted their minds most untiringly to their profession.

Carl Borgman, their Irader, has only been in the country about four months:-Previous to coming here, his was Director of the Royal Theatre of Munich, for a long time ; and after the death of Strauss the eminent composer, by led that distinguished musician's band until it broke no Mr. Bergman enjoys a brilliant reputation as one or the most popular composers of the day, and is eminent both, as a theoretieat and practical mucician.

The other members of the Band are al possessed of the highest talents and each is superior in his particular, department.-The Germanians have performed here the iast two scasons, and they now form a very essential feature of life in Newport during the summer. Last winter they were engaged in Baltimora, for a series of thirty subscription Concerts; and their services have already been accured for the same purpose the coming winter.

After completing their engagement, last spring, they visited many of the principal Northern cities and towns, and gave num erous Concerts to crowded and highly delighted andiences. They also went to Canada where they were most enthusiastically received. At one of their Concerts in Montreal, more than an hundred exquisite bounds were thrown upon the stage during the evening; and wherever they went, they were insiled with delight.

there under his royal patroonge; whether they will accept or not, we are unable to say; -- but we hope, at least, they will remain in this country:

They have been universal favorites here, during the summer, and their Concerts, about twelve in number, have been attended by erowded audiences.

Mr. Helmsmaller, their Agent, is an accomplished man, and a composer of great eminence and merit; we entertain for him the highest respect us a man, as we l'as the warmest feelings of frieudsh p. Wher ever the Gurrandaris may go, we wish them conflored success and happiness, and trust that they will return to us again, next summer, in add very inaterially to the pleasures of the senson.

They will give a series of Conferts in Providence, Worcester, Springfield and othor places before their roturn South.

Stockton, July 25th, 1850.

Never boloro have I seen business so dull in California, se at present; -in fact, nothing is doing, in comparison with last year, and all this apathy may be traced directly to the acts of the Legislature, assembled at San Jose last winter .--The enormous taxos lovied upon foreign miners, \$20 per month, has done more to rain business than any other one thing, and it is a matter of surprise to me that such a bill should have found supporters enough to carry it through. A tax of \$5 per month would have been paid, willingly, and the State would have much greater rovenue than from the \$20 tax. At least one half of the entire population of the southern mines are foreigners, of which about three fourths are from Moxico, Chili and Peru, and, na a general thing, a more peaceable or harder set of working men is not to be found. They and parfeatly contented with earning three or four dollars per day; and for the less four months I do not think they have averaged over "two dollars" por day, boside their expenses, on account of the high state of the water, and all the best places being ocoupied by Americans. . They spend days and weeks in prospecting, and, in almost avery instance, have been the first to discover new diggings, and, are driven away from them by the domineering spirit of the Americans. There is no right nor justice in compelling men to pay one half of their earnings for the privilege of digging, without gentaniceing to them some cut of protection. In some instances they have compied with the law, but to how great an mitent I do not know : in others, rather then submit, they have turned their steps homeward aguio. In many Instances, not

being permitted to die, they have turned their attention to robbery and murder, and hardly a day presion but that we hear of more or less instances of this cort. Nothing of this kind oxisted fact year, and they are here now in no greater numbers than to ferret out the murderers, but this is next to an impossibility, situated as we are here. and the people now have taken the matter into their own hands. Public meetings were holden in agreral partions of the mines last Sunday, and all South Americans' ordered to leave in fifteen days.

Since writing the above, I have obtained a copy of the preamble and resolutions

adopted at Sonora, which are as follows:
Whereas, The lives and property of the American citizens see now in danger, from the hands of lawless maranders of every clime, class and creed under the canopy of heaven, and scatterly a day passes but we hear of the most horrid murders and robber'es ; and as we have now in . our midst the peops of Mexico, the renegades of South America, and the convicts of the British Empire; therefore

Resolved, That all foreigners in Toulumne county (execut persons engaged in permanent ousiness, and of respectable character.) be required to leave the limits of said county within fifteen days from this date, except they obtain's permit to remain from the authorities hereinafter named.

Resolved, That the authorities referred to, be a committee of three, to be chesen or selected by the American citizens of each camp or diggings.

Resolved, That all the good citizens of this country shall resulve themselves into a committee of the whole, to carry out the object of this meeting.

Resolved, That all foreigners be, and they are hereby notified to forn over all their fire arms and deadly weapons to the select men of cach camp or diggings forthwith, except as such as may have a permit to hold the same; such select onch shall give a receipt to much foreigner for the same, and each and every good etizen shall have power to disarm all foreigners."

Such are the resolutions adopted, and what their offect will be, it is impossible to say, but I think it safe to infer that before a better state of things exists, they will be even worse than they are now, These disturbances, oil growing directly out of the tax, have almost put a quietus 'en mining in the southern portion of the State. and consequently every other kind of businces is, fur the present dead. In the porthern miner, up the Speramento, the number of foreigners is very small, in compatison to the number in the southern mines, and i have heard of no disturban-

www. and soon minera will be able work on the bare in the rivers. On the Stamslaus, Toulming and Mercede rivers a number of parties are now engaged in digging canals for the purpose of turning the rivers from their original channel, and it is anticipated that a very large amount of gold will be taken out at the hed, of these streams. Shares in these companies, in some tos suces, sell as high as two and three thousand dellars.

Provisions, as a general thing, are solling at very reasonable prises, flour has advanced ien per cent, within a few days, on account of the whole slock in market haying bean hought up by speculators. It is now selling, here, for \$0 per hundred, and coffee for from \$60 to \$75. Lumber can be had by paying its freight; while one year ago, it was worth from \$700 to \$980 per thousand.

I hope the next time I write that business prospects will be a little more cheor-JACKSON.*

CONGRESS, WASHINGTON, Monday, Sope. B.C. SENATE .- The Texas Boundary Bill, as smended by the House, came up, and Mr. Douglass moved that the Senate concur in the amonement. After an ineffectual at tempt to amend, the motion was carried-31 to 10, 5 (3) A 11, C 11 to K

The resolution adopted by the House to adjourn three weeks from this day [30th inst.] was concurred in. The Senato then went into oxecutive session, and afterwords acjourned.

House .- The House took into consider ation a resolution fixing the time of adjournment. This day week, the 23d instant, and in three weeks time, were proposed ('ultimately this day three weeks (30th inat.) was fix d open.

Mr. Boyd moved to proceed to the business on the Sponker's table, with a view of taking up the fugitive stave bill. Lost---109 to 58 The West Point bil, with the Sec-

President Fillmore has algoed the Texas boundary bill, and the New Mexico and Utah bill.

THE JENNY LIND TICKET AUCTION Second Day .- The sale of Tickets for the first Concert of Jenny Lind was resumed at Castle Gurden at 10 o'clock this morning, and was largely attended. The first privilege offered was troin I'to 20; an increase of ten over the privilege of Saturday. The sules began with \$5 and \$5 25, and ran up to \$6 25; continuing stationary for sonfe time at \$6, and went off freely at \$5. were limited as to prices, the privilege was subsequently extended to 50 sents.

Mr. Barnum announced that an offer of \$5 had been made for every seat remaining in the house, but he had not accepted; and lie do so, though \$1,000 were need. The probability of the residue of the seats going in other directions produced the effect of keeping up the price this morning at

The number of tickets sold up to 9 12 o'clock was considerable war. One anousend Messis Hall & Son were the largest purchasers, taking 870 sents, at \$5 to \$5 1.2-mostly at the former rate.

Mesers. Jollie & Son took 120 sente, at \$5 to \$2 1-8 ...

The Irving House purchased 90 additional seats, at 85 The Clinton Hotel took 20 seats, at

The number of single purchases was very large, ranging from one to lour sents, bid off by individuals at an average of 85.

The gate of Castle Garden this morning has been crowled by an eager throng of Saturday's purchasers in persuit of their tickets. The narrow entrances were taken possesion of at an early hour, and were not again freed till after noon; the mass of people standing wedged in, somewhat after the California fashion upon the arrival of a steamer. Many who could not succeed in forcing their way to the Ticket office, being endowed with more partionce than their neighbors, formed a line, two deep, which at ID o'clock extended half-way across the Bridge,-Gradually the concurse thinned out, and migrated inside the Garden, swelling the numbers in attendance upon the auction. The auctioneer was mounted upon a rostrum in the center of the Bulcony.

The old stage and orchestra in the improvements contemplated by Mr. Barnum, and, the rasp of saws, the strokes of hammers and the voices of the workings, make the Garden second to an uncoinfortable degree. The work is pushed forward with great energy, and will be finished in abundant season for the completion of the decorations and other alterations which me to metamorphose the house. A new place of egress is being constructed from the rear of the balcony, which will render seats in that section very eligible.

Ex-President Tyler was hissed by the students of the Law School at Ballston last week. He attended the anniversary.

THE STRAMER ARCTIC, the next of the Collins line, is nearly completed, and will take her place in the line about the 28th instant, when she will make her first trip to Liverpool.

Gray, Capt, Church, of Uncarvile age from New York to this city on Tuesday night, she was halled when about mideound, Sloot aboy " lower your boat and take a body aboard." This mysterious request at each a time and such a place, was of course a little cut of the common run of sex faring adventure, but the boat was lowered, hevertheless, and after some search a young man was picked up and carried; on board the sloop. He proved to be a Mr. Loomis, of Norwich, who had fallen overboard from the steamboat Worcester about an hour before; and the steamer was out of sight on ber way to Norwich. Louin's seemed, very little exhausted and not at all alarmed, but on being furnished with a suit of dry mothes, was as cheerful as any one on board, and arrived here, the next morning in fine health and spirits; taking care immediately to telegraph his father of his safety, as upon the arrival of the steamboat at Norwich; he would of course be considered lost. -New London Chronicle.

Newvory .- A correspondent of the Boston Daily Journal writes as fol-

"Newport looks old, quite old; yet she don't seem to have changed either for the better or worse during the last half dozen years. The old town looked as if it were going to die to morrow then; there is the same appearance non-and yet the is hale, and hearty still; and seems to enjoy her old age; and means to live along in passive dullness for a great while to come. She ought to paint and polish up, and plant green things, and cherish roses, and For the accommodation of those wito put on breast works, and become young again-but she won't. She lives on the memory of olden times. The string of golden beads she carned by commerce, and were before the Revolution, she refers to now with affectionato regret. But she makes little effort to obtain another golden necklace.-It seems her happiness to stand there, under the hill, and think of what she has been. Her noblests of harbors would stagnate if Heaven dld'nt send a tide to ruftle its bosom daily; and her recherche fish would wax fet and die send her young men to pick them up. But after all, Newport is a worthy town enough; she abounds in hospitality, good nature, pleasant reminiscences, seabathing, and preity girls.-Her great want (and that she wants badly) is enterprise-ENTERPRISE.-Young Newport, on the hill, where the pulaces and hotels are, is a different place, and I will tell you about it some day,

Judga M. M. Neah said, in his "Weckly Messcage," Junuary 6, 1850.

"Dr. Hoffmath of German, Haires—Avere be a preparation of the following for the Union appear to be manifession in recommending, and the restaon is obvious. It is made after a prescription of modern times—the late Dr. Christopher Wilbelm Hospitad, professor to the University of Jean, private physician to the king of Prussia, and one of the greatest medical artifers Germany has over produced. He was couplatifully fine enemy of humbay, and therefore a modeline of which he was the inventor and tenderer may be considered, relicion. He specially recommended it in Live Complaints the Stemach, Constituation, and all complaints arising forms divordered condition of the tomach, the live and the intertiers. Nine Philadelphia papers express their conviction of the societies, and the intertiers of its effects from their own individual experience. Under these circumstances, we fired untrained, not only in calling the attention of our readers to the mesent proprietor's (Dr. C. M. Jackson's) preparation, but in recommending the article to all afficient.

The editor rays of DR. HOOPLAND'S GERMAN BITTERS:

"It is soldon that we recommend what are termed Patent Medicines to the confidence and patronge of our readers; and, therefore, then we recommend Dr. Hondand's Genman Bitters, we wish it to be distinctly understood that we are not specified of the majurus of the day, that are noticed about for a brightness of the day, that are noticed about for a brightness of the day, that are noticed about for a brightness of the day, that are noticed about for a brightness of the prized, and the foreign of the noticed about for a problem of the faculty itself,"

Evidence upon evidence has been received (like the foreigning) from all each ose of the Union, the first three years, and the stronget testimony in its fuvor, is that there is more of it used in the practice of the regular Poystcians of Philadelphin, than all other noutrons combined, a fact that can easily be established, and fully proving that a scientific preparation will need with their quiet approval when presented even in this form.

That this modicine will care liver Complaint and Dispension, so one can doubt after using it as directed. It acts specifically upon the stomach and liver; it is proferable to admonther in all billous discrease—the effect is immediate. They can be administered to found to our form with a profession with cafery and reliable benefit, at any time.
